

SENSUS

Sydney Olympic Park in Focus

TECHNICAL INSIGHT PROGRAMS AND TOURS

Sydney Olympic Park Authority's Technical Insight Programs offer expert information, professional development and high levels of networking opportunities for business delegations, government and academic groups.

Technical Insight Programs provide authentic place-based learning opportunities by going behind the scenes at Sydney Olympic Park. Hear from the experts who have managed, operated and developed this large, diverse urban park over the years since the Sydney 2000 Olympic and Paralympic Games.

Built upon the specialised needs of an Olympic precinct, explore how the site has evolved into a thriving world-class sporting, entertainment, residential, commercial and education centre. Discover ecologically sustainable development initiatives in energy and water management, green building design and sound ecological management.

Create your own experience

Whether you are a group of domestic or international business delegates, government associations, academics or tertiary students, tailor your own Technical Insight experience by focusing in-depth on one theme or combining different themes of interest. Sydney Olympic Park offers a range of focal themes to explore, such as Olympic Legacy, Place or Environment and more.

Themes that you can select from include:

- The Olympic Legacy of the “Green Games”
- Green building design & communities
- Sports business development
- Managing major events & venues
- Urban planning & development — Master Plan 2030
- Parklands planning and management
- Cultural & community engagement
- Visitor experiences and place activation

- Sustainable water reclamation and management
- Environmental remediation & ecosystem restoration
- Wetland management (Sydney Wetland Institute)
- Climate resiliency — future proofing built & natural environments
- Biodiversity

Or talk to us about the areas of interest for your visiting group.

Sydney Olympic Park

At a glance

At 640 hectares in size, Sydney Olympic Park is twice the size of the Sydney CBD and includes world class sporting and entertainment venues, a commercial business park, residential development and 430 hectares of parklands including areas of significant cultural, industrial and natural heritage. Our Park is inhabited by threatened species, protected marine vegetation and endangered ecological communities - right in the epicentre of the new Sydney.

Explore how Sydney Olympic Park, the largest land remediation project in the southern hemisphere became a showpiece of ecologically sustainable development with a vibrant and flourishing community, more than 20 years on from the 'best Games ever', with a thriving township of residents, workers and students.

Fast Facts

- During 2019–2020 the Park welcomed 8 million visitors over the year and hosted 4,000 events as the state’s premier sports and events destination.
- Sydney Olympic Park Authority achieved the highest possible rating of 6 Star Green Star Communities in 2020 by the Green Building Council of Australia.
- Sydney Olympic Park provides home to over 400 native plants and 200 native animals.
- Sydney Olympic Park Authority manages the Aquatic Centre, Quaycentre, Hockey Centre, Archery Centre, Sports Halls, Athletic Centre and Satellite Venues alongside 430 hectares of parklands.
- The award-winning Murama Dance Ground is a landmark place of significance launched in 2019, dedicated to healing and belonging. The space is committed to sharing our First Nation’s culture and stories to support cultural revival, shared learning and social benefits.
